The screenshot shows a Microsoft Internet Explorer window with the following details:

- Title Bar:** CoBrain.com - Microsoft Internet Explorer
- Menu Bar:** File, Edit, View, Go, Favorites, Help
- Toolbar:** Back, Forward, Stop, Refresh, Home, Search, Favorites, History, Channels, Fullscreen, Mail, Print
- Address Bar:** Address: http://oleg/search/us_search2.cfm?query=heat+water
- Links Bar:** Links: Market, www-resources, Best of the Web, Channel Guide, Companies Online, Corporate Websites, Customize Links, Find
- Content Area:**
 - Search Query:** heat water
 - Search Options:** Find, Show summaries, Show synonyms
 - Results Count:** Found: 1
 - Subject:** all
 - Keywords:** absorbing panel, absorption, absorption heat, accommodation cham, accumulating structur, acid service, active heater, add-on boiler, additional heat, additional object
 - List of Results:**
 - 1. heat transfer - heat - feed water passing**
The feed water passing through the filter is heated to a lesser extent than the water passing through the jacket by heat transfer from the combustion chamber and a plurality of flues extending from the combustion chamber through the filter section.
[US 3933129](#). Combined liquid filtering and heating apparatus
 - 2. simple and fool-proof construction - accomplish - heating of water**
Heating of the water is thus accomplished without the use of the heat exchange elements of the prior art by means of a simple and fool-proof construction
[US 3933129](#). Combined liquid filtering and heating apparatus
 - 3. adapt commercially known water heater ELEMENT - heat - water**
The invention is particularly adapted for adapting existing elements to be used in a water heater.
- Bottom Bar:** Done, Start, Taskbar icons (Clock, Network, Mail, etc.), Local Internet zone, Date/Time (16:58 PM)
